Board of Horticulture met in semi-annual meeting to-day, at headquarters, 220 Sutter street. President Ellwood Cooper presided. There were present Commissioners Block of Save Charles. of Santa Clara, Chapman of San Gabriel, General Vallejo of Sonoma, Peck of Pen-ryn, Boggs of Napa and Inspector Klee. here were several visitors, among them J. more prominent before the people than olive culture. New plantations have been started nearly all over the State, and many others would have been started if the trees or cuttings could have been obtained. The culture of the olive has become one of the regular industries in this State, and of the great future which awaits its culture there is no doubt. Olive-oil making cannot be overdone. As the production increases so will the demand, and there cannot be enough produced to supply the demand for many years to come. I am constantly receiving letters saking release to the receiving letters asking where pure California olive oil can be got in the East. This goes to show that the Eastern consumers of adulterated oil are beginning to rebel against it and seek for that which is pure and healthy:

The difficulty in getting pure oil in the market was referred to. at present in the manufacture of pure olive oil in this State: Elwood Cooper, Santa Barbara, Santa Barbara county; Frank A. There are others who have large plantations, and many others who have in recent years embarked in the business and have largely planted olive trees, but as yet they have made little or no olive oil, the fruit being used for pickling purposes. There is no doubt that in a few years there will be an abundance of olive oil produced in this State, as all these plantations are doing exceedingly well and are planted on soil well adapted to their culture.

The comparative advantages of different varieties were considered, the Secretary giving his judgment in favor of the Mission another by G. P. Rixford of Sonoma, were The Secretary reported having found five

At Sierra Madre there are but few olive trees planted, and but few, as yet bearing any fruit, and what olives are proced there have been pickled. At Santa ria there are but few olives, excepting the www orchards that in the last five years have been planted. In San Bernardino ounty but one person has ever made any olive oil, and that only a small amount, namely, E. W. Holmes, of Riverside. There are many trees planted in that county, but the fruit is used for pickling, so you will see that it would be impossible for those brands to have been produced at either Sierra Madre, Santa Maria or in San Bernardino county. Tests showed that all samples of these oils contained various proportions of iard and cotton seed oils. at labeled "Pure California Olive Oil rom San Bernardino Olive Grove," showed no trace whatever of olive. That labeled 'Santa Maria Pure California Olive Oil' showed 10 per cent. olive, the remainder seed oils and lard. That labeled "Coburn's California Pure Olive Oil" showed 30 per cent. olive oil, 35 per cent. lard, 35 per cent. seed oils. That labeled "Red Cross Brand California Pure Olive Oil" was reported by Professor Hilgard of the Uni ersity to be grossly adulterated. It bore a certificate of purity from Professor Hilgard which that gentleman says is wholly unauthorized. The sampe labeled "Sierra Madre California Pure Otive Oil" showed

It was agreed that the question of spurious oils is one of the greatest importance. Mr. Cooper thought that laws against oil adulteration should be made at Washington. Mr. Cooper, Professor Wickson, of the University, and Inspector Klee, were appointed to act as a committee to report upon the oil tests made by the Secretary.

OTHER MATTERS DISCUSSED. The Secretary recommended the laving aside of \$1,000 for the purpose of illustrating new fruits in the biennial reports. The need of information on crystallized fruits was noted. It was recommended that several necessary committees be appointed; that an agricultural chemist be employed to carry on experiments with remedies, compounds, etc. Statistical correspondents are also needed to collect reliable information of the actual condition of the horticultural interests of the State. The Secretary reported that a little treatise on citrus culture, compiled during the year, had been well received, and was in constant demand. Bills amounting to over eleven hundred

dollars are now awaiting payment from the State Treasury.

The report of General Vallejo, Treasurer, gave details of the expenditures of the \$20,000 Legislative appropriation for the thirty-eighth and thirty-ninth fiscal years. No balance remained. The chief items were: Traveling expenses of Commissioners, \$872; Stenographer, \$650; traveling expenses Inspector, \$1,315; salary Inspector (two years), \$4.800; salary Secretary, \$3,600 The Treasurer added that the horticultural pursuits in this State are very rapidly in-creasing and never before has such a rapid increase been witnessed as that of the past two years. The mailing list of this office in 1885 was about seven thousand five hundred; the mailing list of the present year numbers over twelve thousand. The need

of a larger appropriation was urged.
G. W. Klee, State Inspector of Fruit Pests, reported concerning work done since April last. A pamphlet on "Insects Injurious to Fruits and Fruit Trees," is in preparation. A visit to Sutter county showed orcnards there to be in good condition. The introduction of parasites of value in destroying the icerya purchasi was considered. A consignment recently came to this city in the care of A. Korbels, one of Professor Riley's

ssistants.

AT GETTYSBURG. More Monuments Dedicated by the Assembled Veterans.

GETTYSBUEG, July 2d.—The second day of the reunion opened clear and beautiful. No cloud menased the enjoyment of visitors, and the terrible battle of twenty-five years ago was on the lips of everyone. Trains with thousands of passengers rolled into the town, and the crowd increased until the place was filled fuller than at any time since the memorable days of '62. At 10 o'clock the Seventy-eighth, One Hundred and Second, Sixtieth, One Hundrek and Thirty-seventh and One Hundred and Forty-ninth New York dedicated their monuments on Culp's hill, and immediately afterwards the remnion of the brigade was held. A SYMPATHETIC MAN.

There is a little matter of history that does infinite credit to the benevolence of one of the candidates for Vice-President. In 1880 Congress, moved by the suffering in Ireland, placed the ship Constellation at the disposal of any one willing to send relief to that afflicted land. Some weeks afterward Mr. Morton learned that no offer had been made to load the vessel. Thereupon he addressed a letter to the Herald, in which he said: "You are authorized to announce that a gentleman known to you, who declines to have his name made ply at 928 M street.

TO LFT- A FURNISHED FRONT ROOM for gentleman or gentleman and wife. Apply at 928 M street. public, offers to pay for one-quarter of the cargo of the Constellation if other parties will make up the balance." At the same time he had determined to furnish the entire cargo if there was any delay in securing other aid. The proprietor of the New York Herold, however, and W. R. Grace contributed each one-quarter, and other gentlemen furnished the remainder.

This is not stated in appeal to voters of Irish origin, but in reply WEDNESDAY July 4, 1888, to the charge that Levi P. Morton is a cold and unsympathetic rich man. The truth is he is one of the most genial, kindly-hearted and open-handed of all New York's citizens. The New York Tribune says:

"By reason of troubles of the Rockaway Beach Improvement Company in the summer of 1880, when 500 workmen were unable to obtain their wages because of the financial ruin in which the gigantic hotel enterprise had been involved. Certificates of indebtedness were issued to the workmen, but they were useless to the men, who needed food for their wives and children. At this juncture Mr. Morton joined dren. At this juncture Mr. Morton joined the house of Drexel, Morgan and Co. and each contributed \$50,000 for the relief of the workingmen. They paid the full amount of the certificates and declined to accept any discount. In 1885 he gave to Dartmouth College a house and lot for the certificates and lot for the certificates and declined to accept any discount. In 1885 he gave to the certificates and declined to the certificate which he had paid \$7,500. The gift was for the purpose of enabling the college to erect an art gallery and museum. When Mr. Morton was made Minister to France. Dartmouth conferred on him the degree of LL.D." And it was the very least acknowledgment it could make.

THE Democratic journals continue to refer vaguely, and with a far-away and mysteriously tragic air, to General Harrison having assailed laboring men in Indianapolis. There is no truth in this, General Harrison stood for the preservation of order, respect for the law, and opposed to mob violence, Let the Democratic papers handle this matter very tenderly, for there are two sides to it, and the full history of the facts when published will not make capital for the Democratic party. General Harrison is the friend of labor, the champion of honest industry, and the friend also of order, law, and the peace of society, and the last men in the world who can afford to favor violence and disorder are the wage-winners, since they are always the chief sufferers when disor der prevails and violence usurps the throne

THE St. Louis Globe-Democrat puts it in a nutshell in these words: "There is no flaunting of the bloody shirt in the Chi- 429 J street. cago platform; but the grave fact is plainly stated that the present Administration owes its existence to 'a suppression of the ballot by a criminal nullification of the Constitution and laws of the United States.' That is a fact which cannot be overlooked or condoned; nor can it be repeated if the Republicans of the country do their duty in a properly resolute, vigorons and harmonious manner." That is the really overshadowing question of the campaign. The issue is squarely made, shall citizens be longer deprived of the one supreme and chief right guaranteed them by a form of self-government? Shall it be longer possible for a party to perpetuate itself by a system that denies to over two millions of voters the right to a voice in shaping the policy of the Government?

JOHN SHERMAN announces that he will heartily support Harrison and Morton, and that he holds them to be worthy the honors of election. This was precisely what was expected of Senator Sherman. He is loyal to his party, not because he is a partisan, but because, as he says, it stands for principles of essential value to American labor and to the security of equal rights,

HERE is another reason why General Harrison is disliked by the Democracy. In 1879 he aided the Federal Government in prosecuting certain Democratic conspirators for importing ballot-box stuffers into southern Indiana. Their leader was convicted and was sentenced to the peniten

EDS. RECORD-UNION: As a neighbor, friend and adviser of the Soule family, I will correct certain portions of a most outrageous and scandalous article published in last Saturday's Ree, no doubt through the persons committing this most dastardly deed. As before stated, the family reside on a most beautiful ranch about three les southeast of the city limits, and have lived a quiet and peaceful life. Early this season, when the fruit commenced to ripen they became aware that unknown persons were harvesting their crops by the light of the moon. They at first could hardly believe it themselves, for they have no enemies, but when night after night the fruit disappeared they began to investigate, which resulted in the discovery of peculiar footprints, over two feet long, with marks across, as if put together by hinges and with a sharp point ojecting from each end, no doubt manu factured to hide suspicion. The next night Mr. Soule and his two sons armed themselves with a double barrelled shotgun and two pistols, ready to shoot the first person seen, but they seemed to understand the movements of the family, and whenever

AN ADDITION

FAMOUS HICKEY TRACT!

ST NEAR LOOMIS, PLACER COUNTY, TO

In Subdivisions of 10 and 20 Acres.

TWO YEARS AGO WE SUBDIVIDED THE HICKEY TRACT, AND SOLD IT ALL TO parties who are improving and beautifying their purchases. The reputation and producing qualities of the land upon this tract reached far beyond the Missouri river. The inquiries being so numerous, and having sold all the above tract, we induced a syndicate to purchase a large tract of land adjoining on the East; the soil being the same formation, producing the earliest and all qualities of Fruit, from the berry to the peach and orange.

An Irrigating Ditch,

With water sufficient to irrigate the whole tract, runs through this colony. TIMBER sufficient for domestic use upon each ten or twenty acres. WAGON ROAD running by the

door. DEPOT, three miles, to Newcastle, Loomis or Penryn, with the Best Market in the State.

FRUIT can be gathered in the forenoon and shipped to its Eastern destination on the same evening, which of itself is a great advantage over Fruit that cannot be shipped the same day it is picked. This land is only a short distance from the great Colony Lands now being prepared by J. P. Whiti ey, Esq., and for which \$150 to \$250 per acre will be obtained, which adds another value to the lands offered by us. They are equally as good as those to be offered by Mr. Whitney, and will command as great a value. PRICES RANGE \$40 TO \$75 PER ACRE, without irrigation. This Tract is protected upon the north by a low range of hills, consequently the cold

want something fine get at once one of our new ALASKA FAMILY; BUT IF YOU have them from \$14 up. Have just received a full carload of them, and another to arrive next week. HOW THE ALASKA IS CONSTRUCTED: DURABILITY—To give strength and durability, an inside body, or frame, is made of well-dried, matched wood, to which hardwood cleats are solidly nailed. Upon these cleats the outer body, or frame, is built. ODORLESS WOOD—The inner frame is made from perfectly odorless wood, and is lined with zinc. All exposed wood, as under the lids and about the doors, is odorless tulip poplar, thoroughly shellaced. This makes the Refrigerator clean and sweet. CHARUOAL FILED—The space between the outer and inner walls is filled with pure charcoal. This construction is peculiar to the ALASKA alone; for, while some may have the imide box—which is either made of pine or not lined with zine—nearly all have only the outside wall of pine; with the zine nailed directly upon the cleats, and with less than an inch of packing (and often with no packing) between the boards and zinc. Thus made, they lack strength, durability and refrigerating qualities.

Highland Park School. A petition was presented to the Board of Supervisors yesterday asking for the establishment of a school district which will include the Highland Park tract and some adjoining territory. This suburbs of the city has grown with astonishing rapidity, and the petition shows that there are now forty-one school children within the proposed district. F. D. Myers says that at the end of this month there will be forty-seven, and that by the 15th of December, under contracts already signed they will have forty-two buildings on the Highland Park tract. Out of 317 lots all are sold but 43. Mr. Myers has donated three lots for the school building in case the petition is granted, of which there is no doubt, since it has the approval of the County Superintendent of Schools.

AN EVENTFUL LIFE. Henry A. Caulfield was born in Ireland and at the time of his death about 61 years of age. He came to the United States early in lite, and in 1844 was a member of the in lite, and in 1844 was a member of the Emmet Guards of Albany, New York.
During the anti-rent troubles in that State his company was ordered to Columbia county to assist the authorities in suppressing the Anti-Renters. This association had county to assist the authorities in suppress-ing the Anti-Renters. This association had ommitted various outrages. They had tarred and feathered several officers, and killed the under Sheriff of Delaware county, who was a brother of Major-General Steele. On the commission of this last act of outrage the State militia was called out to assist in their suppression. An in-dividual who passed under the name of "Big Thunder" was the leading spirit among the Anti-Renters, and so audacious was he that on one occasion he rode in open daylight into the town of Hudson, where Caulfield's company was quartered, and fired at a number of the soldiers who were standing in front of a hotel, the ball burying itself in the awning post. Caulfield was in the crowd which was the mark of

this leaden compliment. Anti-Renters were so effectually disguised that for a time they escaped identification. HE WAS A '49ER. Judge Buckley Deals with a Very Tough Crowd.

On the 19th of June, 1851, he had a dis greement with George Wilson, who was ben a Justice of the Peace and an Asso iate Judge of the Court of Sessions. Wilson had made some offensive remarks about an attorney, and on the day mentioned the attorney came into the Courtoom while the Court was in session, and waited for its adjournment. When Wilson stepped down from the bench the attorney demanded a retraction, which he declined to Bake. The attorney struck at Wilson, the latter parried the blow, and drawing a sword from his cane stabbed the attorney

dangerously. At this juncture Caulfield entered the room, and drawing his revolver ired several times at Wilson, but did not hit him. One of the bullets wounded Captain J. H. The Board of City Trustees met in regular session yesterday morning; all the members present, Mayor Gregory presiding. Chief Engineer Williams reported that during the week ending July 1st the Holly pump had been in operation ninety-nine hours and the Stevens 158 hours.

Chief Lee reported that during the month of June the police had made 273 arrests.

Harbormaster N. A. Kidder collected for the month \$161.

The Poundmaster, Philip Rumble, reported that he had imprisoned during the month of June seven horses, nine cows and forty dogs.

One day he stopped in front of a butcher shop at Front and N streets, and abused the shopkeeper. The latter, becoming enraged, picked up a butcher-knife and started for Caulfield. The latter knocked him down, and, deliberately taking the long knife from the butcher, turned him over his body, pinning him to the ground, and walked off, supposing the latter was dead. That butcher got well, and Caulfield has often been heard to regret his not making a better job of it.

To-day the case of Herzog vs. Caulfield was to have come up in the Superior Court. Caulfield said to parties yesterday that if the case went against him he pro-posed to kill Mr. Herzog, and also the latter's attorneys, Holl & Taylor.

ABSOLUTELY PURE.

por quick raising, the Royal Baking Powder is superior to all other leavening agents. It is absolutely pure and wholesome and of the highest leavening power. It is always uniform in strength and quality and never fails to make light, sweet, most palatable and nutritive food. Bread, biscuits, muffins, cake, etc., raised with Royal Baking Powder may be eaten hot without distressing results to the most delicate digestive organs. It will keep in any climate without deterioration.

Prof. H. A. Mott, U. S. Government Chemist, after examining officially the principal baking powders of the country, reported:

"The Royal Baking Powder is absolutely pure, for I have so found it in many tests made both for that company and the United States Government.

"Because of the facilities that company have for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the proper proportions of the same, and the method of its preparation, the Royal Baking Powder is undoubtedly the purest and most reliable baking powder offered to the public.

Remarkable Surgery. The science of surgery has made such wonderful progress in modern times that the most intricate and delicate operations are now undertaken and carried to a suc cessful issue. There are now several well authenticated cases of what is known a pneumotony, that is to say, the removal of diseased portions of the lungs in cases of consumption. While, however, this deli-cate operation has sometimes been successfully performed, the risks attending it are so great, and the chances of recovery so slight, that it is seleour resorted to. The
